PONY SQUARES

Taking turns, connect a line from one star to another. Whoever makes the line that completes a box puts his or her initial inside the box. The person with the most squares at the end of the game wins!

TIC-TAC-TOE

The object of Tic–Tac–Toe is to get three in a row. The first player is known as X and the second is O. Players alternate placing X's and O's on the game board until either opponent has three in a row or all nine squares are filled. X always goes first, and in the event that no one has three in a row, the tie game is called a cat's game!
